I'm happy to answer on behalf of the Board of Trade since I was on site for two of the four Aristov Circus shows. Thank you so much for suggesting them. They were incredibly talented and professional. At each of the shows, the audience was thrilled, over and over again, by the Aristov's performance. Their energy and enthusiasm – especially in the face of such overwhelming heat – was remarkable. We would be delighted to welcome the Aristov Circus back to Richmond Hill any time!

His performance was great! Everyone loved him. He has a great sense of humour and he fit in perfectly with our big Italian family. My daughter followed him to every table during the strolling magic...actually...all the kids did. After he left, the adults were still trying to figure out how he got 100\$ into the lemon. Will definitely recommend! Thanks again!

Houston's show was a hit. Exceptional. The younger ones in the crowd took a few minutes to get it but he won them over. His lady performer killed it with a saucy Reba amongst others. Next year I would like to find a similar impressionist voices & songs style show so if you notice something suitable during the year, please let me know.

First and foremost, Atsushi Ono, the magician, was such a delight to work with. Not only was he talented and professional, he was absolutely charming to be around. I would recommend him over and over again.

People were hesitant at first, but as he wowed small groups with his sleight of hand, and the sounds of shock and applause got louder, more and more people came to see what Magic Box was all about. Once the customers experienced a trick or two they made their way to the wine, just beside the magic, and I think with a positive experience before hand, they were in the right frame of mind to appreciate the wine. Atsushi got them excited and the product carried it home.

The levitating glasses were a hit, however, it was difficult to not have people reach out and grab them nearer to the end of the night and if we put them behind us, then no one would have seen them. I think it was unavoidable as people began to “sample” more and more product, but it wouldn’t deter me from putting them out again!

We had a very good lineup of wine (Fontanafredda Barolo, Torres Gran Coronas, The Barossan Shiraz etc), but I think Atsushi was instrumental in attracting the crowds, while the wine kept them there!

Magic Box, as a product, was well received. The Chardonnay converted self proclaimed chardonnay haters, and the cab remained king, as always.

Overall, it was such a fun and unique experience to have had entertainment to go along with the wine. I believe it really made an impact on the perception of the product, even before the juice hit lips. I even caught myself a couple of times watching the show while trying to pour! Thank you for setting us up with Atsushi and the glasses. We were absolutely the best table at the event!

Everything went great on New Year's Eve! Thank you for checking in. Greg was great and very easy to work with. He did a great show and had quite a large audience. He interacted well with the audience and that was very much appreciated. Everyone seemed very pleased.

There was a good mix of light effects/fire and regular juggling etc. in his routine – nice balance. I especially liked the light poi and when he was doing that part of the show. The audience was yelling out what they were seeing. I thought that was great.

Thanks again Mike. You've been great to work with and we will definitely consider your services again moving forward. With appreciation,
